

## IDX Alert

The ID badge with added protection featuring GPS and bluetooth technology. Ideal for lone workers who work in public facing roles that need a discreet device to check-in and raise panic alarms.

From £160 per device

## About the device

A light, discreet and easy to wear device that looks like an ID badge. The IDX Alert provides a great level of protection in social and public facing environments and features a large SOS panic button for emergencies, as well as the man down function to detect falls.
