

# ProGARM® 2200 Welding Gaiters

## EN STANDARDS

## PRODUCT DETAILS

**Sizes:** XS-S, M-L, XL-2XL sold in pairs

**Colour:** Silver

**Code:** 2200

## PRODUCT FEATURES

- Highly molten metal splash resistant fabric
- Elastic band below the foot
- Flame resistant Velcro® fastening on the back for adjustment

## PRODUCT DESCRIPTION

Longer length welding gaiters providing protection from molten metal splashes, sparks and slag when welding, grinding or cutting. Constructed using an innovative flame resistant Siloxane fabric, which provides a high level of protection while also being durable and comfortable to wear.

Offers protection for lower leg and foot from sudden flame exposure, molten splashes, sparks and heat. Attached and secured at the rear with flame resistant Velcro straps and under-foot with a single elasticated strap-fastener.
