ALTHOUGH MANY IN THE INDUSTRY SEE OUR HARNESSES AS HAVING NO EQUAL, WE CONTINUE TO IMPROVE, REFINE AND INNOVATE.

The ExoFit NEX™ Suspension Harnesses incorporate the most advanced technologies in the industry. These multi-use harnesses are ideal for the professional performing rescue and emergency services, industrial rope access and rigging, wind energy and tower maintenance - as well as for arborist activities.

An all black version is also available for theatrical rigging, lighting technicians, police and military applications. The harnesses combine specialised designs, components and hardware to optimise rope rescue and industrial rope access work.

PRODUCT OVERVIEW

COMFORT

These harnesses are comprised of materials that provide the ultimate in comfort even during extended use, but won't add unnecessary weight. We add moisture wicking padding wherever appropriate to keep you dry and cool all day and implement critical adjustment features that allow for a perfect fit.

FUNCTION

ExoFit NEX™ will provide the freedom and confidence to function at your maximum potential. Innovative safety devices and ground breaking design features - such as Duo-Lok™ quick-connect buckles, Tech-Lite™ aluminum D-rings and Hybrid comfort padding - permit the wearer to work smarter, faster and safer.

DURABILITY

The ExoFit NEX™ harness is designed using materials of lasting strength, including Repel™ webbing and Tech-Lite™ hardware made from aircraft aluminum. It can withstand incredible demands on a daily basis. Each ExoFit NEX™ harness is built to perform to the highest standards in the harshest of environments - your job site!

EXOFIT NEX™ ROPE ACCESS & SUSPENSION HARNESS

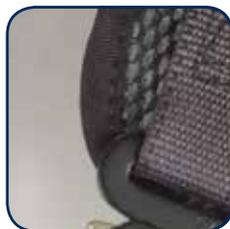

MOULDED LANYARD KEEPERS

Easy storage of connectors, that pop open to avoid snagging hazards.

REPEL™ TECHNOLOGY WEBBING

Water repellent to reduce attraction of mould and dirt - also has up to 5 times more abrasion resistance.

ULTRA-SOFT EDGING

Soft-Feel edging eliminates chafing and improves comfort.

HYBRID COMFORT PADDING

Lightweight, moisture wicking, and breathable padding won't move or slip, keeping the wearer comfortable at all times.

NEW ULTRA COMPACT CHEST ASCENDER

Available with ultra compact, light weight chest ascender.

DUO-LOK™ QUICK CONNECT BUCKLES

Lightweight one-handed use with memory-fit web-lock ensures fast, non-slipping connections.

TECH-LITE™ ALUMINUM D-RINGS

Extremely lightweight alloy commonly used in military and aerospace offers a higher level of security and comfort.

SUPERIOR X-DESIGN

Design is based on a single piece of material in the shape of an "X" that wraps around the wearer for the ultimate in comfort, security and no-tangle donning.

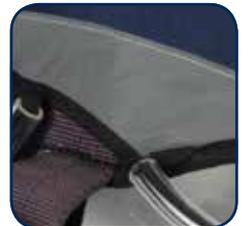

COVERED LABELS AND I-SAFE™

The labels and i-Safe™ are covered and protected from abrasion and damage under inspection cover of belt pad.

REFLECTIVE MATERIAL

For greater visibility in dark and dangerous environments, reflective material is integrated on legs, chest, shoulders and back. Black version available.

PVC COVERED GEAR LOOPS

3 conveniently placed gear loops, left, right and centre back. Ample for transportation requirements.

EXOFIT NEX™ ROPE ACCESS & SUSPENSION HARNESS
