EASYLIFT EL-SDH Manhole Cover Lifter

Small and light mechanical manhole cover lifter for lifting manhole covers up to diameter 800 mm (31½ inch).

The manhole cover is lifted by tilting the EL-SDH with the handle. Optimal lifting position adjustable by chain.

Can be combined with crosspieces for lifting split covers.

The crosspiece of the EL-SDH can be pushed forward and back by approx. 120 mm (4¾ inch).

Optionally available: Permanent lifting magnet EL-SDH-LHM-300.

Key not included in the delivery. See table on next page.

- Durable surface protection by galvanizing.
