

ABLRST COMBI Lanyard

The Abtech Combi Lanyard is ideal for users who require to switch between working in restraint and working in fall arrest.

The unique lanyard, which should be attached to the Dorsal attachment of the harness, allows the user to work in Fall Arrest. If the situation changes and they require to work in Restraint, they can bypass the shock pack and safely work in restraint.

As standard, Lanyards come complete with Karabiners each end. For other variants, please use the following codes:

SL - Soft Loops

SH - Snap Scaffold Hooks

SC - Pear Shaped Scaffold Hooks

D - Delta Mallion

e.g ABL2.0SH is a 2m Shock Absorbing Lanayrd c/w a Snap Scaffold Hook and Karabiner
