

FastClip Quick connect hook, alloy

CH141

Fastclip connector assembly for transferring to and from offshore wind turbines.

Fastclip quick connect hook for attaching to self retracting lifeline.

- allows rapid attachment and release
- one handed operation
- releases under moderate tension
- double action gate with offset operating levers for security
- indicator shows if hook has been overloaded
- closes and locks automatically
- anchor point is ejected when hook is released

Patented GB2543699

Specifications:

NB: specifications and colour may change without notice.

Size: 140mm long x 80mm wide

EN Test Mass:

Loading: 24 kN

Conformity: EN362

Materials: Aluminium alloy

Weight (kg): 0.25

Industries: Offshore wind, Oil and Gas
