

FA 20 410 20 – 20m Triton Stainless Steel Waterproof Fall Arrest Block

- **20m** (FA 20 410 20).
- High impact resistant polymer with stainless steel casing. x1 Swivel rotations.
- Vertical use only.
- Complete with swivel snap hook with load indicator at attachment end and shackle at anchorage end.
- Integrated carrying handle.
- The design of the internal mechanism in 2 different parts allows a perfect impermeability (meets IP68 level of IEC 60529) of the blocking-braking system.
- As for the pulley & wire rope part, it allows to replace the wire rope quickly & easily with minimum tools.
- **Wire:** \varnothing 4.5mm.
- **Resistance:** 12 kN.
- **Max Weight:** 140 KG.

- **Conformity:** EN 360, IP68 + ATEX Directive.

- **Material:** Casing:  INOX / Fittings:  INOX / Wire:  INOX
