

Ideal for keeping car parks, container depots and warehouses free from metal debris such as swarf, nails, nuts & bolts etc., the forklift Magnasweep magnet simply slides onto the forklift forks, offering quick and easy operation

With a corrosion resistant, robust design, this forklift magnetic sweeper will pick up metal contamination from approx 4-5" off the ground.

The magnetic surface of the sweeper is easily cleaned, and once your cleaning operations are complete, the forklift magnet can be removed from the forklift for use at a later date

Model Ref	Width (mm)	Depth (mm)	Max Fork Size (mm)	Fork Pocket Centres (mm)	Weight (kg)
FMM-1200	1525	8	280	127	67

Features & Benefits

- Strong magnetism suitable for picking up metal debris 4-5" from the ground
- 125mm deep x 1200mm wide corrosion resistant magnetic surface
- Robust design providing long service life properties
- 'T' screw retention to forklift forks ensures magnet is safely retained to the lift truck
- Non magnetised cleaning strip allows metal debris to be easily brushed off
- 'CE' marked and supplied with Certificate for Conformity to meet health & safety regulations

Please Note :

This magnet can effect Pacemakers, Credit Cards, Watches and other electrical devices.

Minimum safe distance = 1m
