

APPLICATION:

The harness Ladytrac™ A is designed for women. Its patented design avoids the positioning and friction of the harness straps on the chest. This harness is equipped with a dorsal attachment point. Ladytrac™ A is the first harness specially designed for women. It is one of the rare harnesses that provides real comfort for women.

The Ladytrac™ A harness includes an ergonomic jacket for optimal comfort. This ventilated elastic canvas jacket is equipped with multiple Velcro® fasteners and adapts to all morphologies. The Ladytrac™ A harness is also equipped with self-closing buckles that ensure a precise adjustment of the straps.

TECHNICAL SPECIFICATIONS:
