

Piranha replacement rope - 2m

LAR02

Replacement rope options for use with Piranha Adjustable lanyards

Refer to LA02 Adjustable lanyard specification for full details of Piranha options.

Sleeve protects against abrasion, sharp edges and contamination.

Use of screwlinks (certain models) helps eliminate risk of side or cross loads, and can be a semi-permanent attachment if required.

Adhesive heat shrink prevents the ID label from being damaged or lost. Replacement ropes available.

Can be fitted by the user in minutes and requires only a screwdriver.

Code	Length	Anchorage connector
