

Sentinel fabric covered 0.5m

MR715

Rope protector 0.5m length. Chainmail construction with fabric cover.

Comes complete with chainmail protector and outer fabric cover combined.

- Wrap around style rope protector with Velcro closure
- Stainless steel for corrosion resistance
- Prussic loop attachment to rope with captive 3 mm cord
- Chain mail construction gives high cut resistance
- Fabric cover protects paintwork or other easily damaged surfaces

In tests against a guillotined steel edge the chainmail withstood over 200 passes. In the same test, canvas was cut through after 2 passes.

Can also be used to protect ropes, lanyards, cowstails etc. when working with sharp tools or materials.

Dimensions (open) 45 x 16cm

Supplementary attachment loop allows multiple protectors to be connected together to cover longer lengths.

Also available: MR705 Sentinel chainmail protector without cover.

Patent Pending **GB1600292.5**

Specifications:

Size: 0.5m

EN Test Mass: N/A

Loading: N/A

Conformity: N/A
