**PRODUCT NAME**  
WOODEN POLE STRAP ANCHOR

**ORDER CODE:**  
POLE STRAP ANCHOR

**WHAT IS IT?**  
(Product Description):

The Wooden Pole Strap Anchor is an adjustable anchor strap CE Marked to EN795:2012. It is constructed from hard wearing webbing, easy to install and adjust.

Manufactured from hardwearing polyester and incorporates a quick release buckle, the pole strap anchor can be easily attach and remove from the pole.

The pole strap anchor is easily adjusted and has an adjustment range, fitting poles up to a maximum diameter of 4100mm.

To aid the user adjustment the pole strap has a tailored fly end, this has been specifically manufactured to give the user extra grip and high visibility section which makes each anchor easy to spot once on the pole.

**What can it be used for?**  
(Intended Function):  
(Intended Function):

The Pole Strap Anchor has been designed and tested to create an anchor point on wooden poles capable of withstanding a shock loading; this means that it is intended to be used as part of a Fall Arrest System.

**What can I use with it? (Compatibility):**

(Compatibility):  
The Pole Strap Anchor is compatible with the following equipment and their associated systems;

- Fall Arrest Lanyards
- CLIMA work position lines
- CLIMA vertical lines
- Fall Arrest Blocks

If you are unsure of any equipment and its compatibility with the Pole Anchor Strap please contact SpanSet Ltd.

**Who can use it?**  
(Competence, Size and Adjustment):

Work at height can be a high risk activity. It is therefore essential that all users are competent in the pre use inspection, fitting / adjustment and use of this item. The pole strap anchor can fit poles up to diameter 4100mm.

**How long will it last?**  
(Maintenance, Inspection and Lifespan):

The lifespan of the pole strap anchor is limited by the following;  
The product has a maximum service-life of 10 years from the date of first use.  
The lifespan may also be reduced by the effects of damage or wear and tear.  
The lifespan will cease at the point when any one of these conditions is met.  
The condition of the product must be controlled in accordance with BS8437:2005, this requires regular inspections to be carried out by a competent person.

## Height Safety

---

### Pole Strap Anchor

---

#### How has it been tested?

##### (Relevant Standard and Quality Assurance):

The Pole Strap Anchor is CE marked under the Personal Protective Equipment Directive.

The CE marking process includes independent testing to EN795:2012 – Personal protective equipment against falls from a height – Anchor Devices.

The SpanSet manufacturing process is quality controlled and audited by the British Standards Institute to the international standard for quality management ISO9001:2008.

#### What is it made from and why?

##### (Specification and Materials):

Pole Strap Anchor

- Webbed—40mm Polyester
- High Viz Orange
- Stainless Steel Attachment Point
- Maximum Pole—4100mm
- Aluminium quick release buckle
- Web tides
- High Visibility
- Sew backed fly end for extra grip

#### Additional SpanSet Features:

Individual Serial Numbering – All SpanSet Height safety products are individually serial numbered for traceability.

#### What paperwork is supplied?

##### (Product Records and Information):

Individual Product History Card – This record card contains all the documentation required to maintain the product. The front forms the European Declaration of Conformity and the table on the reverse can be completed to form the inspection record.

Pocket Inspection Guide – This simple to follow pocket card identifies the key areas requiring inspection.

#### What training is required?

##### (Competency):

Although in itself this is a simple item to use, there are three stages that should be considered as part of the process as a whole. Training is available for all the stages outlined at the SpanSet training school in Middlewich or subject to suitability on a site of your choice:

Assessment and planning – Training Module 9 Management of Work At Height

Use – Training Module 1 Height Safety Equipment Appreciation and Inspection followed by an appropriate practical module.

Inspection and Maintenance – Training Module 1 and Module 7 Competent Person Practical Inspection & Record Keeping.

All training for work at height is conducted in accordance with BS8454:2006 and is audited as part of our ISO9001:2008 quality management system.
