

PRODUCT DATA SHEET

Product ID:
RGK20

Product Name:

10mm Screwgate Delta Link
(10mm Diameter)

The RGK20 is normally used as a central connection link at the attachment point of the front of an adventure/climbing harness.

This provides a semi-permanent connection to the fall arrest equipment. This item also has many applications in the rope access and leisure industries.

The screwgate closure on this device means that the user must manually lock the RGK20 keeper after fitting.

Accredited to:

EN 12275:2013 UIAA
EN 362: 2004

Material:

Steel

Plating:

Zinc

Gate opening:

10mm

External length:

86mm

Closure type:

Screwgate

MBS:

45kN

Weight:

153g

Features:

Screwgate
