

## Rigger's tower climber kit - Helium

WK112

### A lightweight and comfortable kit enabling riggers to work at height safely

The riggers kit is versatile allowing for work positioning and fall arrest.

Helium harness has front and rear fall arrest attachment points. Side D-rings for work positioning using integral belt with large lumbar support pad. The adjustable harness structure ensures good fit with maximum comfort and security.

The robust and ergonomic Tensor twin lanyards allow for continuous attachment while climbing.

Piranha adjustable lanyard allows precise positioning and can be operated with one hand.

Duon helmet has high specification with dual certification, wide range of adjustment for a comfortable fit and T-slot side fittings for standard ear defenders etc.

Kit includes:

- HELIUM full body harness
- ELITE twin lanyard 1.25 cm
- PIRANHA adjuster for positioning or restraint 2m
- DUON helmet EN 12492
- Personal Kit bag 5L 7kg SWL

Patented GB2543699
