

Rotor Tower crane rescue system 50m

WK39

Self contained rescue system for self evacuation or recover of a casualty from tower cranes

SkyPackTC is designed to allow automatic self-evacuation giving limited maximum descent speed, or allow the controlled rescue of a casualty from a tower crane cab, jib or ladder by lowering or lifting.

The locking extendable rescue pole allows immediate connection to the harness of a person hanging suspended after a fall.

The pulley provides mechanical advantage to raise a load or deviate a rope.

Includes the ultra compact, universal sized, casualty harness. Lightweight and easy to fit to an incapacitated casualty.

This compact system comes complete with durable carry bag.

Kit includes:

- Rotor CRD x 1
- 9.5mm CRD Rope x 1
- Delta casualty harness x 1
- Rescue reach pole x 1
- Rescue pulley x1
- Throwline, 50m x 1
- Sling, nylon protected 120cm x 2
- Oval karabiner x 3
- Oval captive karabiner x 1
- Pear screwlink x 1
- Rescue kit bag x 1

Available in 50m or 100m.
