

Contact Stablemate Access Platforms offer the ideal solution to your needs when elevation is needed during un-scheduled emergency situations such as building repair, checking high level racking, light bulb changing etc

All platforms come supplied with safety harness rails and positive heel locking

A superior range of platforms manufactured to a high specification

Model Ref	No of People	Method of Entry	Weight (kg)
*WP-SPG	1	Front Gate	99
WP-ECONOMY	1-2	Step Through	92
*WP-GATED	1-2	Side Gate	114

* Where gates are fitted, locks operate automatically when platform is raised off the ground

Features & Benefits

- Security locking system to fork heels ensure the work platform is safely secured to the lift truck
- Full length fork pockets to provide complete platform stability
- Harness anchorage points and in-board handhold points for operator safety
- Perforated back mesh ensures a barrier between the operator and hazardous areas of the lift truck
- Anti slip floor tread with drain holes to avoid accumulation of water and risk of slipping
- Kick rail to all sides prohibits items left on the floor of the platform from falling out
- Complies with Guidance Note PM28 (Fourth edition)

Platform Dimensions

Model Ref	A (mm)	B (mm)	C (mm)	D (mm)	E (mm)	Max Fork Size (mm)	Capacity (kg)
WP-SPG	1000	1000	794	1860	1070	150 x 50	300
WP-ECONOMY	1000	945	945	1850	1070	150 x 60	500
WP-GATED	1220	1000	794	1860	1070	150 x 50	500

Enhance your platform with the following

Tool Tray

Keep tools safe and secure whilst working at height

Strip Light Bulb Holder

Store long and awkward light bulbs safely

Safety Harness

Secure personnel safely inside the platform

Castors

For easy manoeuvrability when forklift not in use (adds 130mm to overall height)

Overhead Guard

Protect personnel within the platform from overhead hazards

Inspection Kit

A program of visual checks to ensure platform is in full working order
