

cromox Grade 6 Swivel Sling Load Hooks with eyelet CWHB

The William Hackett Grade 6 cromox components are manufactured by KETTEN WALDER in Germany using the highest quality of stainless steel to achieve market leader quality products. All components are manufactured on state of the art modern machinery. These products are rigorously tested in house and form part of the cromox chain sling system. The cromox range of products use the highest levels of design, materials and manufacturing processes to produce the best performing products for use in the harshest environments. Due to the high quality, purity and narrow tolerances of alloying elements in cromox steel, we are able to produce durable, heavy duty stainless steel products with increased corrosion and crack resistance. The high concentrations of chromium ensures a strong and passive layer of chromium oxide for protection. A precise amount of Nickel creates a shiny surface and other alloys like molybdenum allow for increased Working Load Limit (WLL) and a higher breaking load.

SPECIFICATIONS

Type	t mm	g mm	b mm	h mm	WLL tonnes	Mass kg
SS-CWHB-0405	120	20	40	16.0	0.63	0.65
SS-CWHB-0607	165	25	49	21.0	1.25	0.988
SS-CWHB-0810	235	40	64	33.0	2.50	2.710

Advantages:

- Duplex material 1.4462 (AISI 318LN) ensures superior corrosion resistance
- Ball bearings allow easy rotation even under full load
- Large eyelet dimensions for multiple applications
- Patented skeletto design guarantees high admissible loads
- Flattened section on the eyelet enables combination with Cromox Clevis Shackles CGS
