

WATER RESCUE TELESCOPIC REACH POLE

The reach poles provide a rapid, agile method to reach a conscious in-water casualty. The poles can equally be used to retrieve items from the water.

The lightweight, durable fibreglass make it very easy to operate at such lengths.

Pole sections cannot be fully separated, each section has a clamp that unlocks a section and enables easy adjustment for fast extraction and retraction.

On the tip of the pole is an aluminium bayonet fitting for use with the poles quick-release accessories.

- Pole material: carbon fibre
- Clamps material: reinforced resin
- Attachments: 316 stainless steel
- Rubber base
- Quick and easy to attach accessories

What is supplied with the pole?

- Grapple hook
- Shepherd's crook
- Pole extension
- Inflatable buoy
- Storage bag

What can be bought separate?

- Go Pro Mount
- Water Rescue Jaws
- Narrow Hook
- Inflatable Buoy
- Net Attachment
