## CPL - Pipe Lifting Clamp

The Tiger CPL pipe lifting clamps are used in sets of three for the vertical transportation of concrete pipe sections with a diameter of up to 2 m . The jaw capacity is designed for pipe thickness of 40120 mm for the 1.5 t capacity set and $90-220 \mathrm{~mm}$ for the 3.0 t capacity set. Attachment and removal of the clamps from the pipe is extremely easy due to the simple and straightforward design. For concrete according to DIN4034. The capacities shown are based on a set of three clamps.
